"Outlaw" Switch Strike Done--Ten of the Leaders Under Arrest

(Canadian Press Wire)
Chicago, April 19.—Ten of a new strike among railroad employees in the Chicago district today confronted claims of railroad management and threatened officials that the "outlaw" switchmen's strike had been broken, and the situation rapidly was returning to normal.
Eight thousand freight handlers and 30,000 railroad clerks, employed in all lines entering Chicago, will take a vote tonight, after a conference today with the railroad board, George A. Worrell, chairman of the Chicago and Northwestern Railroad Co., announced. He said he had been empowered to speak for all clerks and freight handlers.
The unionists, however, refused to be presented, but said there "seems little chance of compromise," and the men probably would strike on Tuesday.
As a result of a new Federal decree on strike leaders at Chicago, nine were arrested. Nine were released on their own recognizance.

French Army of 700,000
Till Foes Obey Treaty

(A. P. Special Cable)
Paris, April 19.—France must maintain an army of 700,000 men until every country "show their good will by accepting the terms of their treaties," the opinion of government officials, according to newspapers here.
Under contemplation call for 200,000 recruits, constantly under training, eighteen months' service before being sent to the front.
"Wages equal to those paid industrial workers, less the cost of food and lodging, provided by the government, will be paid enlisted men and conscripts who re-enlist. It is expected that the army will be reduced to 100,000 men by 1925. In future a soldier may not have his hair in any way but must be clean shaven and not have his hair closely cropped. Old regulations, permitting beards, but specifying that they must not be as long as a side collar insignia.

As Basis for Negotiations With Soviets.
Complete Independence and Natural Frontier.

(A. P. Special Cable)
Moscow, April 19.—(By the Associated Press.)—Chaim Weizmann, chairman of the Jewish Agency, said today that the negotiations with the Soviet Union, which he said were the first of which was recognition of the complete independence of Latvia, and the establishment of a frontier in accordance with natural boundaries. The other points were:
Second—Mutual renunciation of claims for the payment of the costs of the war.
Third—Mutual renunciation of interference in internal affairs of one nation by the other.
Fourth—Protection of the rights of property of Latvian nationals in Russia and recognition of reparations rights.
Fifth—Restitution of property and securities removed by Russia.
Sixth—The participation of Russia in compensation to Latvia for losses sustained in the Russo-German and Russo-Latvian wars.
Seventh—Recognition of the proportional claim of Latvia to the Imperial Russian Government's holdings of gold funds.
Eighth—The use of Latvian Harbors by Russia in return for equivalent compensation.
Ninth—The Russian Government, Adolf Joffe, head of the Soviet delegation, insisted that ethnographic considerations alone should determine the boundary lines between the two countries, and that the question of property rights in Latvia by Latvia and the repatriation of nationals must be considered in the light of Russia.
As to the use of Latvian Harbors, Mr. Joffe declared it was a right possessed by Russia, and that the question of compensation for such use was absurd. Free transit would be more beneficial to Latvia than to Russia.

VERY SUDDEN DEATH
Fred G. Walmsey Got Unexpected Call

Many friends of Mr. Fred G. Walmsey, 25 Arthur Avenue, St. Catharines, who died suddenly, early Sunday morning.
The late Mr. Walmsey had not been in his work on Saturday, and seemed to be in good spirits when he had his fellow employees' good night at 10 o'clock Saturday evening. He had for some time been a valued employee of the Green Publishing Company, having had charge of the carpet and drapery department, and a great number learned to respect him for his business and personal qualities.
The cause of his death was a heart attack. He was a man of about 40 years of age, and was a member of the First Methodist Church of St. Catharines. He was a very kind and generous man, and was very popular among his friends and fellow employees.

Silos and Sunflowers Multiply Farm Profits

Silos and sunflowers promise to revolutionize farming methods in Western Canada. That also on the farm practically double the stock carrying capacity of the land is a fact well proved by the experience of thousands of farmers in all parts of the American continent; while practical experiments in the growing of sunflowers made on farms and experimental stations in various parts of Western Canada show that twice as large a yield per acre can be obtained with sunflowers as with corn or any other ensilage. So very satisfactory were the results obtained last season in widely separated parts of Alberta, Saskatchewan and Manitoba, both in growing sunflowers and using them for ensilage, that it is safe to say that a considerable area will be planted to this crop in 1920. Perhaps the best crop of sunflowers in Western Canada was that harvested on the Demonstration Farm of the Canadian Pacific Railway at Strathmore, Alberta. From about eight acres of land an average yield of 245 tons to the acre was obtained. The land on which it was grown was irrigated. Generally speaking, twenty-five to thirty tons of sunflowers to the acre can safely be looked for on irrigated land in Southern Alberta.

Sunflowers were also grown with great success on land in districts where irrigation is not necessary. At Okotoks a yield of thirty tons to the acre was obtained by one farmer. At Canby fourteen tons to the acre was gathered and at Darnsland Thomas Noble harvested fifteen tons to the acre. All these places are in Central Alberta and the yields were obtained in a season that was unusually dry. Given a season with an average rainfall the yields would have been enormous. Mr. Noble finds sunflowers a good soiling crop, and feeds his cattle with them in July and August, besides filling his silos.

Yields similar to those obtained in Central Alberta were harvested in the various parts of Saskatchewan and Manitoba where sunflowers were grown, and it seems to have been sufficiently proved that they will grow and give enormous yields almost anywhere in Canada. Feeding tests show sunflowers in just as favorable light as the harvested yields. Professor G. H. Hutton, Superintendent of Agriculture and Animal Industry of the Canadian Pacific Railway, has shown that the feeding value of sunflowers ensilage is superior to that of corn or of peas and oats mixed during the past winter. Forty Holstein cows on the company's farm at Strathmore, Alberta, were successfully rationed on corn, peas and oats, and sunflower silage for periods of two weeks, each cow being given thirty pounds of silage daily. Only

Cutting the Sunflowers.

the last seven days of each period were counted in the tests. The results show that during the period of sunflower feeding the cows gave more milk, the milk contained a slightly higher percentage of butterfat, and the animals gained more weight than during the periods with the other food.

Tests that are being conducted at the Manitoba Agricultural College, while not quite completed, show similar results to those obtained at Strathmore. At the College six cows are being used in the test, which is being made over several periods of three weeks each, with different rations. During the three weeks they were given sunflowers, these six cows gave 40.7 pounds more milk than during the previous three weeks when they were fed corn silage. They also showed a slight increase in weight.

Professor G. H. Cutler, head of the Department of Field Husbandry at the University of Alberta has devoted much time to the study of the sunflower as a silage crop for the Canadian prairies. "The mammoth Russian in the variety that gives the most satisfaction," says Professor Cutler.

This is a single stalk variety having huge heads from twelve to fifteen inches in diameter. Under conditions even in the driest parts of the country this crop can be expected to yield from twenty to thirty tons of very good forage, per acre. The usual tonnage of corn is easily exceeded.

It is contended that the sunflower is destined to become an important crop in the Canadian West. With a yield of double, and a feeding value of at least equal to that of any other fodder crop, it will enable double the

number of live stock to be supported on the same land, and with the use of silos this number can be further multiplied. With this crop generally grown, the dairy industry will receive further impetus. And since it is claimed that equally satisfactory results are obtainable with sunflowers in the feeding of beef cattle, sheep and hogs, the growing of this crop will enable mixed farming to be carried on more successfully, thus ensuring still greater prosperity, not only among the farming community, but to the country generally.

Street's Weekly Trade

Toronto Current trade at local wholesale houses continues good, in spite of the fact that the demand being the outstanding feature. In textiles there does not appear to be any prospect of an easing of the demand for clothing and hardware markets, locally, maintain the strength which has characterized them for some time. The demand for hardware is a little more plentiful now, with the raw selling at first prices. Collections are good.

Montreal—In the drygoods trade, prices are as high as ever, with much of the demand being for the heavy goods. There has not been many changes in the grocery markets. The tone of the market is strong with an upsurge in the demand for the staple goods. The trade has been only fair, due to the inclement weather. Collections are good.

Quebec—There is a little change in the general situation, at wholesale and retail houses. The general trade is not so good as it was some time ago. The demand for the staple goods is not so strong. The trade is not so good as it was some time ago. The demand for the staple goods is not so strong. The trade is not so good as it was some time ago. The demand for the staple goods is not so strong.
